

ROTARY VALVES – COMPLETE RANGE

COMPREHENSIVE AIRLOCK & FEEDING
SOLUTIONS FOR EVERY INDUSTRY

OSWAR
rotocorp

Oswar Rotocorp offers a comprehensive range of Rotary Valves engineered to meet diverse industrial requirements — from standard material discharge applications to high-pressure, high-temperature, hygienic, abrasive, and zero-leakage environments.

Our portfolio is structured to provide scalable solutions tailored to specific operational demands. Whether for continuous-duty heavy industries or precision-controlled hygienic applications, each Rotary Valve platform is designed with strict dimensional control, optimized rotor geometry, and advanced sealing configurations.

KEY ADVANTAGES

STANDARD DUTY
SERIES

HIGH-
TEMPERATURE &
ABRASIVE SERIES

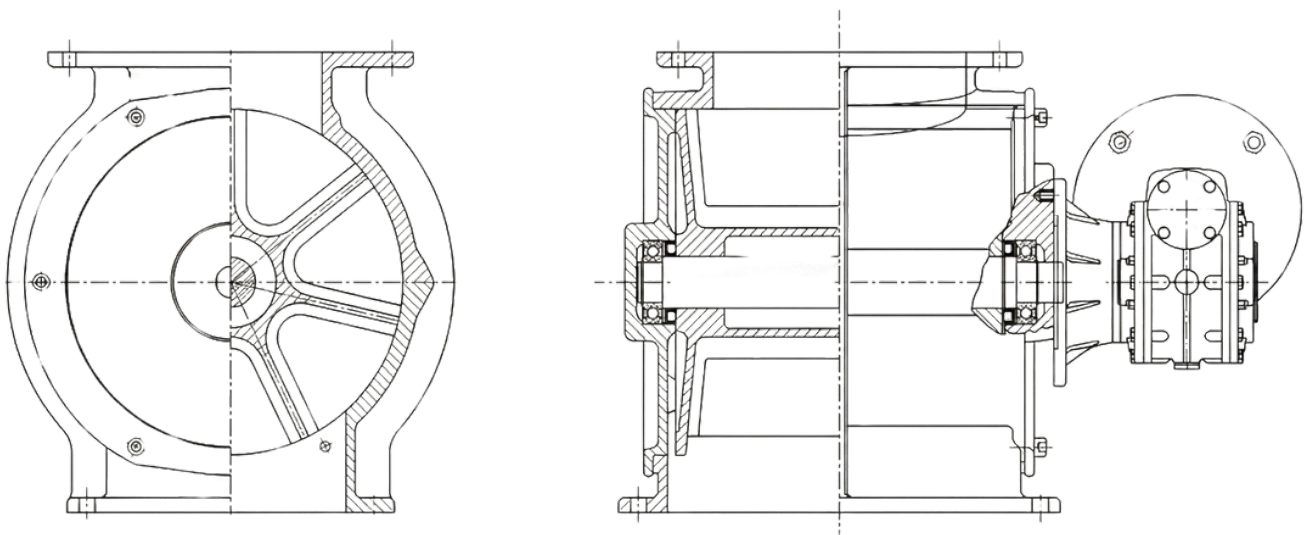

HYGIENIC &
PRECISION SERIES

ZERO LEAKAGE
PREMIUM SERIES

ENGINEERED ACROSS PERFORMANCE TIERS

Every Rotary Valve within our complete range is developed using precision CNC machining, controlled rotor-to-housing tolerances, and performance-driven design principles.

From standard industrial construction to premium reinforced platforms, each series is engineered to deliver stable volumetric control, minimal air leakage, and extended service life under varying operating conditions.

ENGINEERING FEATURES

- Precision CNC-machined housings
- Optimized rotor geometry for stable discharge
- Controlled clearances for airlock efficiency
- Advanced sealing configurations
- Heavy-duty bearing and shaft protection systems

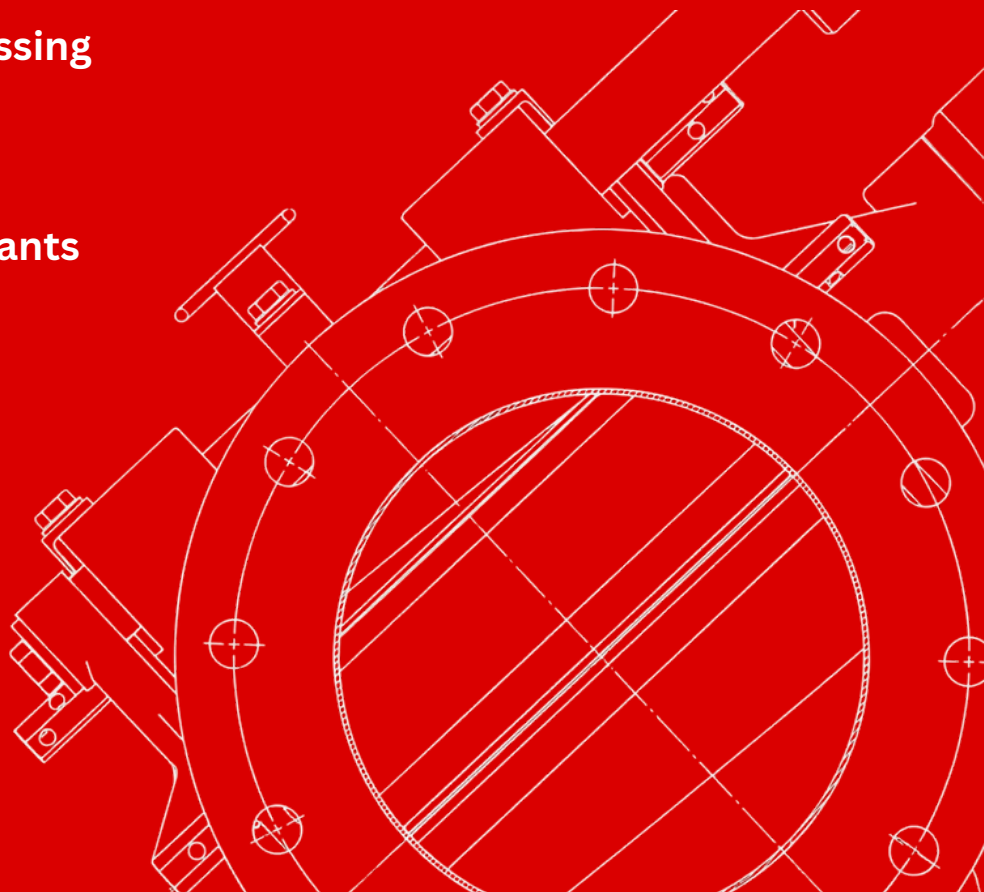

SERVING INDUSTRIES WORLDWIDE

Typical Applications:

- **Dust Collection & Bag Filter Discharge**
- **Cyclone & Silo Feeding Systems**
- **Pneumatic Conveying (Pressure & Vacuum)**
- **Kiln & Clinker Discharge**
- **Boiler Ash Handling**

Industries Served:

- **Cement Manufacturing**
- **Power Generation**
- **Mining & Mineral Processing**
- **Steel & Lime Industries**
- **Chemical Processing Plants**
